In partnership with Preferred Therapy Solutions, New England Homes for the Deaf provides personalized care. We believe that truly tailored programs are the most powerful element in healing, recovery, and rehabilitation.

This is why every therapy program we create is guided by a profound and lasting commitment to the patient. We take a systematic approach that is disciplined and efficient, but always keeps the unique needs of patients in mind.
Specializing in treatment designed to help regain movement and function, reduce pain and to prevent future injury. Our custom programs are designed to help assist in recovery from:
